

Feedyard Manure Management Handbook

This Feedyard Waste Management Handbook has been prepared by the Texas Agricultural Extension Service for the benefit of feedyard operations, manure haulers, and producers utilizing feedyard manure as a nutrient source. The information in this notebook is a compilation of current information covering a broad range of waste management topics. Although a number of sources have been utilized in preparation of this material, the following have served as the editorial board for this publication:

Dr. Sam Feagley, *Professor & State Soil Environmental Specialist*

Soil & Crop Sciences Department, Texas A&M University, College Station, TX 77843-2474

Dr. Brent Auvermann, *Assistant Professor & Extension Agricultural Engineering Specialist*

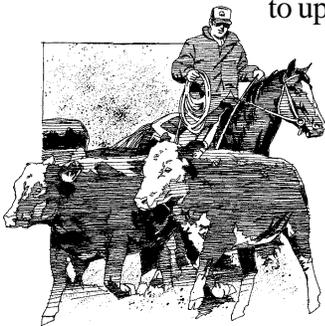

Texas Agricultural Extension Service, 6500 Amarillo Blvd., West, Amarillo, TX 79106

Dr. Wayne Greene, *Professor, Animal Nutrition*

Texas Agricultural Experiment Station, 6500 Amarillo Blvd., West, Amarillo, TX 79106

Acknowledgment of contributions from other authors accompanies the material they have provided.

As additional information becomes available, the notebook format of this publication will allow the user to update the information and to add new material as it is developed.

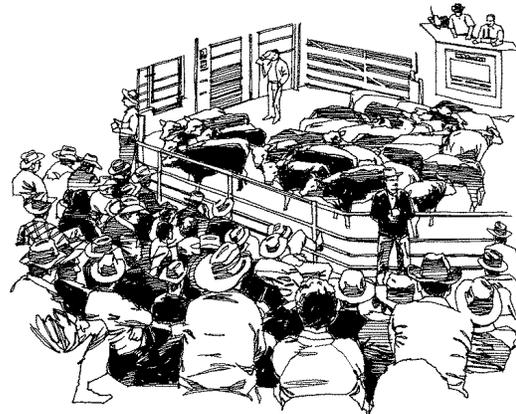

This handbook development and delivery has been partially funded by a grant from Texas Natural Resource Conservation Commission.

The information given herein is for educational purposes only. Reference to commercial products or trade names is made with the understanding no discrimination is intended and no endorsement by the Texas Agricultural Extension Service or Texas Agricultural Experiment Station is implied.
